

Organization Announcement

Cognius.ai's Board is pleased to announce the appointment of Neil Pollock as CEO and Managing Director of Cognius.ai effective 01 October 2022.

Following a detailed evaluation of the current status of the technology evolution and business traction of Cognius.ai, the Board decided to make certain changes in its organizational structure. These changes are designed to position Cognius.ai for the next phase of its growth journey and enhance the considerable strengths developed over the past 33 months as a start-up focused on innovative, value-generating AI solutions.

Vijay Srinivasan, Founder and incumbent CEO conceived the idea of Cognius.ai, put together the initial team and laid the foundation of Cognius.ai as a unique non-linear conversational AI startup; he will now assume the position of Founder and Executive Chairman, with a specific focus on developing the India market. He will continue to be based in Singapore.

Neil has been associated with Cognius.ai as an Advisor or Non-Executive Director for the past two years, understands the technology and business of Cognius.ai, and is well-positioned to take Cognius.ai to new heights with his expertise and broad business-building experience across several geographies.

In his most recent roles, Neil has successfully grown technology companies from an almost zero base.

Organization Announcement

Founder & Executive Chairman

Vijay Srinivasan, said

“Neil is a business builder with a strong technological focus, and has built significant businesses across Australia, India and Singapore. I am confident he is the right leader to take Cognius.ai forward in its next phase of growth. The team at Cognius.ai is delighted to welcome Neil to his new role and looks forward to collaborating with him in this exciting journey.”

CEO & Managing Director

Neil Pollock, said

“Cognius.ai is at an exciting inflection point in its journey. The technology is leading-edge and particularly relevant in today’s hyper-competitive conversational AI marketplace. The CTO has a record of entrepreneurial technology innovation and the Founders have built a team of talented and dedicated staff who understand the potential of the technology. I am excited by the opportunity and am looking forward to leading and building the business in this expanded role.”

About Cognius.ai

Cognius.ai is a non-linear Conversational AI company with a presence in Australia, India, Singapore and South Africa.

At Cognius.ai, we deliver authentic engagement and actionable insights to enable our customers and partners to support the seamless digital transformation of their end customer experience engagement interactions using configurable, non-linear, conversational AI.

Our Sofia platform is the most accurate, cutting-edge, purpose-built, multi-channel conversational AI technology platform, designed to play a pivotal role in the digital transformation of enterprises. Sofia is capable of rapid prototyping, making it easier and quicker for developers and process owners to create pilot workflows for use cases and test results
